SUBJECT INDEX: 1987 (Vol. XXIV)

Page numbers referring to 'Book Reviews' are italicized

A

Albumin excretion rate
in diabetes mellitus 149

Alcian blue with PAS *101*

Aloe vera
and antidiabetic effects 37

Alpha-tocopherol
in diabetes mellitus 133

Amino acids
and insulinoma cells 299
in experimental diabetes mellitus . 43

Analysis of variance 141, 331

ANOVA method 51, 199

Antibody-dependent cellular cytotoxicity . 9

Antidiabetic plant mixture 37

Anti-insulin cytotoxicity
a longitudinal study 271

Antithyroid autoantibodies
effects on insulin release . . . 9

Apolipoprotein B
in non-insulin-dependent diabetic patients 341

Arginine test
in diabetes mellitus 109

Armanni-Ebstein change
in WBN/Kob rats 27

Arterial blood pressure
and pentoxifylline 229

Artificial endocrine pancreas
and type I and type II diabetes mellitus 181

Aspirin and non-enzymatic glycation . . 171

Autoimmune thyroid disease (AITD) . . 9

B

Blood glucose
and glucosidase inhibitors . . . 213

Blood glucose lowering plant extracts . . 37

Blood lactate
in diabetes mellitus 263

Blood rheology
and pentoxifylline 229

Blood sugar
and TSH treatment 51

Blood viscosity
in non-insulin-dependent diabetic patients 341

Bonferoni's simultaneous test
in pregnant diabetic women . . 1

Brain
in experimental diabetes mellitus . 43

Brittle diabetes
and CSII 193

C

Calcitonin
in non-insulin-dependent diabetic patients 305

Calcium antagonists 299

Carbohydrate homeostasis
after pentoxifylline 181

Cardiovascular risk factors in children
a book *87*

Caries
in pregnant diabetic women . . 1

Central nervous conduction
in diabetes mellitus 157

Chi-square test 101, 193, 223, 271

Cholesterol
in diabetes mellitus 133, 141

Chronic renal failure
in diabetic patients 91

Clinical diabetes mellitus. A problem oriented approach
a book *359*

Collagen fibers
in diabetes mellitus 101

Commiphora myrrh
and antidiabetic effects 37

Complement-dependent antibody-mediated cytotoxicity
and insulin release 9

Continuous s.c. insulin infusion (CSII)
and diabetic lipodystrophy . . . 165
in brittle insulin-dependent diabetic patients 193

Cord blood
and glycated hemoglobin . . . 249

Correlation test 317, 341

C-peptide secretion
and HLA antigens 317

D

Dental changes
in pregnant diabetic women . . 1

Desensitization
of B-cells 17

Diabetes
and arginine test 109
and central nervous conduction . 157
and cholesterol 133, 141
and chronic renal failure . . . 91
and CSII 193
and fibronectin 255
and glycosylated hemoglobin . . 91
and hGH 109
and histological skin changes . . 101
and HLA antigens 317
and hydrochlorothiazide . . . 325
and insulin antibodies 271
and left ventricular performance 263, 283
and limited joint mobility . . . 101
and lipodystrophy 165
and macular recovery test . . . 311
and NAG 149
and pentoxifylline 229
and pentoxifylline administration . 181
and plant extracts 37
and propranolol 325
and renal lesions 27
and salivary flow 223
and TSH test 109
and vitamin E 133

Diabetes and protein glycosylation
a book *175*

Diabetes for the house officer
a book *87*

Diabetes, pathogenesis and treatment
a book *87*

Diabetic cardiomyopathy
and metabolic control 263

Diabetic complications
in children 157

Diabetic lipodystrophy
a case report 165

Diabetic nephropathy 149

Diabetic pregnancy
a book 89
and caries 1
and oral hygiene 1
and periodontitis 1

DMF index
in pregnant diabetic women . . 1

Dopamine
in experimental diabetes . . . 43

Double photon absorptiometry
in non-insulin-dependent diabetic patients 305

Duncan's test 199

Dynamic exercise
and left ventricular performance . 263

E

Elastic fibers
in diabetes mellitus 101

Elderly women
and whole blood filterability . . 199

Electron microscopic findings
and renal lesions in WBN/Kob rats 27

Erythrocyte membrane fluidity
in diabetes mellitus 141

Experimental diabetes mellitus . . . 43

Extensive wounds
and hyperglycemia 119

F

Ferula assafoetida
and antidiabetic effects 37

Free fatty acids (FFA)
and diabetes mellitus 263
and TSH treatment 51

Fibrin-cap lesions
in WBN/Kob rats 27

Fibro-calcific pancreatic diabetes mellitus . 81

Fibronectin
and retinopathy 255

Fisher's exact test 271

Forskolin
and insulin release 17

Fructosamine assay
in diabetes mellitus 241
in non-insulin-dependent diabetic patients 341

G

GBM thickening
in WBN/Kob rats 27

Gingivitis
in pregnant diabetic women . . 1

Glomerular sclerosis
in WBN/Kob rats 27

Glucagon secretion
by cultured islets from diabetic hamsters 287

Glucose
and cultured pancreatic islets . . 17

Glucose k-value
in mongrel dogs 51

Glucose oxidation 299

Glucose tolerance
in heroin addicts 205

Glucosidase inhibitors
in type II diabetics 213

Glycated fetal hemoglobins
and birth weight 249

Glyceraldehyde 299

Glycosylated hemoglobins 91

Glycosylation of blood proteins
in diabetic patients 91
two methods 241

Gomori methods 101

Greene-Vermillion (OHI-S) index
in pregnant diabetic women . . 1

Growth hormone
in diabetes mellitus 109

H

Hale's method 101

Hamsters 287

Hartley's test 199

HDL cholesterol
in diabetes mellitus . . 138, 141, 341

Hematoxylin
and eosin 101

Heroin addicts 205

hGH-reserve
in diabetes mellitus 109

Histochemical skin changes
in diabetes mellitus 101

Histological skin changes
in diabetes mellitus 101

HLA antigens
and remission 317

Hormonal parameters
and fibronectin 255

Hydrochlorothiazide
hyperglycemic effects of – . . . 325

Hyperglycemia
after generalized infection . . . 119
and propranolol 325
and hydrochlorothiazide . . . 325

Hyperinsulinism
a book *175*

Hypertension
and apolipoprotein B 341
in elderly obese women 199

I

Immunofluorescence findings
in renal lesions of WBN/Kob rats . 27

Impaired glucose tolerance (IGT)
in obese elderly women 199

Indomethacin 205

Insulin antibodies
a longitudinal study 271

Insulin-dependent diabetic patients
and arginine test 109
and cholesterol 133
and diabetic complications . . . 157
and HLA antigens 317
and pentoxifylline 229
pentoxifylline treatment in – . . 181

Insulin metabolism
in extensive wounds 119

Insulin receptors
in extensive wounds 119

Insulin release
and antithyroid autoantibodies . . 9
and phenazine methosulfate . . 65
in cultured pancreatic islets . . . 17
induced by nutrients 299
in extensive wounds 119

Insulin secretion
by cultured islets from diabetic hamsters 287
in heroin addicts 205

Insulinoma derived B-cell line . . . 325

Islet-cell function
and antithyroid autoantibodies . . 9

Islet-cell surface antibody
and insulin release test 9

Islets from diabetic hamsters 287

Islets of Langerhans
from male albino rats 65

I.v. glucose tolerance test
in mongrel dogs 61

K

Kruskal and Wallis method 133

L

Lactobacilli
in diabetic women 223

LDL cholesterol
in diabetes mellitus . . 133, 141, 341

Left ventricular dysfunction 81

Left ventricular ejection time (LVET)
and diabetes mellitus 263

Left ventricular performance
in insulin-dependent diabetic patients 263, 283
in non-insulin-dependent diabetic patients 283

Light microscopic findings
in renal lesions of WBN/Kob rats . 27

Limited joint mobility 101

Linear regression analysis 255

Lipid disorders
in diabetes mellitus 141

Longitudinal study
of insulin antibodies 271

Long-term complications of diabetes mellitus
a book *362*

Lumbar BMC
in non-insulin-dependent diabetic patients 305

M

Macular recovery test
in diabetics 311

Male Sprague-Dawley rats 43

Mann-Whitney U test 149

Maternal glycated hemoglobin
and birth weight 249

Metabolic control
and left ventricular performance 263, 283
and serum lysosomal enzymes . . 331

Metabolic parameters
and fibronectin 255

Metabolism
in experimental diabetes mellitus . 43

Molecular genetics of common metabolic diseases
a book *361*

Mongrel dogs
and TSH treatment 51

Monoamine neurotransmitters
in experimental diabetes mellitus . 43

Mucopolysaccharides
in diabetes mellitus 101

N

N-acetyl-β-D-glucosaminidase (NAG)
in diabetes mellitus 149

Nephropathy
and pentoxifylline 229

Non-insulin-dependent diabetic patients
and apolipoproteins 341
and arginine test 109
and calcitonin 305
calcium 305
and cholesterol 133
and glucosidase inhibitors . . . 213
and NAG 149
and osteoporosis 305
and phosphorus 305
and PTH 305
and renal failure 149
and serum lysosomal filterability . 199
pentoxifylline treatment in – . . 181

Nigella sativa
and antidiabetic effects 37

Non-enzymatic glycosylation
and aspirin 171
in uremic patients 91

Norepinephrine
in experimental diabetes mellitus . 43

Normal pregnancy
and glycated fetal hemoglobin . . 249

Nutrient-induced insulin release . . . 299

O

Obesity
and whole blood filterability . . 199

Oral changes
in pregnant diabetic women . . 1

Oral hygiene
in pregnant diabetic women . . 1

Osteoporosis
in type II diabetes mellitus . . . 305

P

Pancreas cytology
and TSH treatment 51

Pancreatic islets
and insulin release 17

Paradoxical hGH-response
in diabetes mellitus 109

Pentoxifylline
in nephropathic patients . . . 229
in type I and type II diabetes mellitus 181

PEP/LVET ratio
and metabolic control . . . 263, 283

Phenazine methosulfate stimulated secretion 65

Periodontitis
in pregnant diabetic women . . 1

pH
in diabetic women 223

Plants
antidiabetic effects of – 37

Plasma apolipoproteins
in non-insulin-dependent diabetic patients 241

Plasma calcium
in non-insulin-dependent diabetic patients 305

Plasma catecholamines
in diabetes mellitus 305

Plasma phosphorus
in non-insulin-dependent diabetic patients 283

Plasma proteins
in uremic patients 91

Portable pump
and diabetic lipodystrophy . . . 165

Pre-ejection period (PEP)
in diabetes mellitus 263

Pre-meal insulin boluses 193

Propranolol
hyperglycemic effects of – . . . 325

PTH
in non-insulin-dependent diabetes mellitus 283

R

Rats
and generalized infections . . . 119

Regression analysis 311

Remission
and HLA antigens 317

Renal failure
in diabetes mellitus 149

Renal lesions
in WBN/Kob rats 27

Residual B-cell function
and HLA antigens 317

Rete pegs
in diabetes mellitus 101

Retinopathy
and fibronectin 255
and macular recovery test . . . 311

RINm5F cells 299

Risk prediction of macular recovery
by retinopathy 311

Russell's periodontal index (PI)
in pregnant diabetic women . . 1

S

Salivary secretion rate
in diabetic women 203

Secondary diabetes mellitus 81

Serotonin
in experimental diabetes mellitus . 43
